

AEAP

ASPIRE ENGINEERING AND PROJECTS

CREATE.ENHANCE.SUSTAIN

www.aeapindia.com

We provide Great Ideas and ensure successful implementation for:

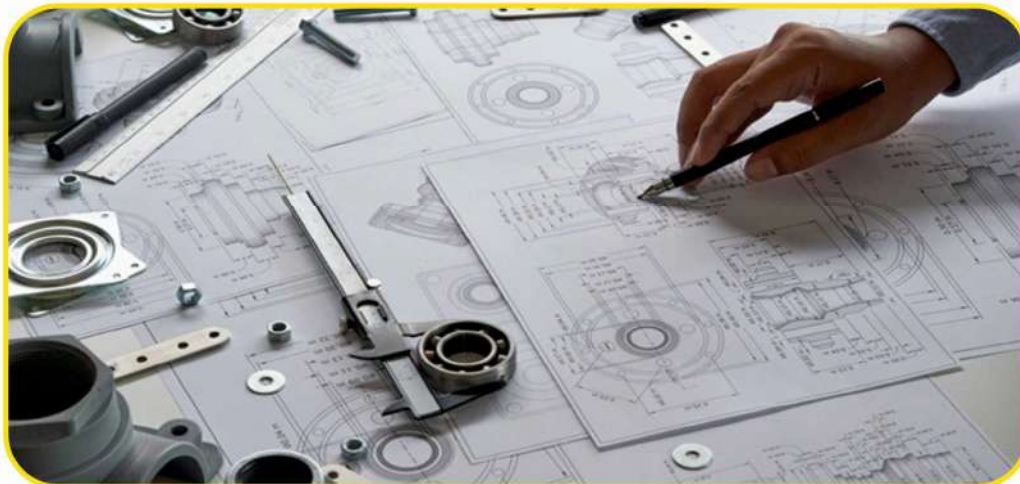

- Expansion of existing factory
- Existing factory upgradation

AEAP, with its rich experience in process design, can offer complete turnkey solutions and services for Food, Fmcg and Dairy industries.

We can offer services following services :

- Designing of process/equipment for the plant
- Process & Utility piping
- Civil and structural works
- Ventilation and firefighting

With our services we strive to deliver with highest quality industry standards.

Process Equipments – Focusing quality And food safety

We are experts in :

- **Design** – URS, GA Drawing.
- **Supply** – Equipment Supply –MS,SS etc.
- **Install** – Erection, installation etc.

Process Equipments in all shape and sizes. By process, we mean all equipment required. From a staircase to tanks, vessels to a turnkey based project. We do it all.

Hygienic engineering is the core of our design philosophy.

Ensuring all Projects and supplies are handled by expert professionals.

Piping Services – Expert Delivery On Time

- **Pipes and Structural Material Supply- MS ,SS etc.**
- **Piping and Fabrication Services – Process Piping, Industrial Services etc.**

Our trained team ensures 100% compliance to Safety and Quality during Project Job execution at site with regular proper project planning and schedule, Tool Box Talks, PPE's, Barrication, Work Permits, Work Method Statements etc.

We optimize and work collaboratively with client to provide customized solutions as per site requirement to minimize shutdown time.

Industrial Flooring Solutions- Maintaining Quality From Base

Floors provide the foundation for safe, hygienic food production in factories :

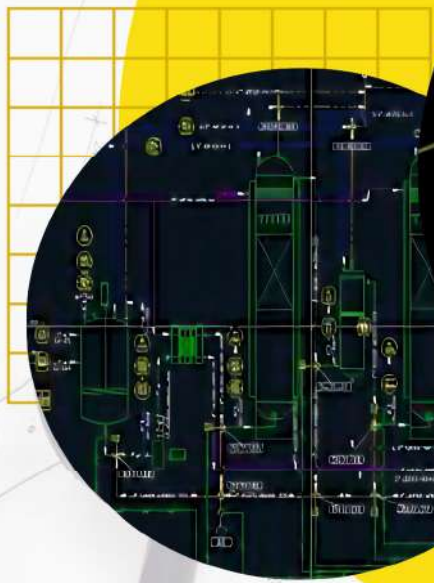

- Places where listeria are likely to be found and may persist.
- Slipping accidents correspond to 20% of workplace accidents.
- Failures in flooring systems can be time consuming to repair and require production shut-down.

AEAP has the edge and provides to customized solutions in Flooring Services:

- Ceramic Tile Floors – for CIP Areas
- Epoxy and PU Resin Floors – Production Areas (Antimicrobial ESD-for Atex Requirements ,Non -ESD)

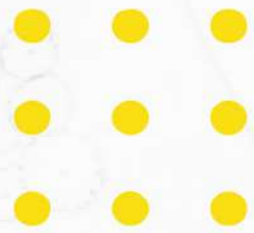

We have trained professionals and products to cater specific requirements with timely application.

EXPERTS IN FOOD/FMCG INDUSTRIES

- Engineering Consultancy- Process Engineering, PID Design, GA Drawings, AHU Design.
- Process Equipments - Supply and Installation - MS, SS
- Piping Services- Supply and Installations
- Industrial Flooring Solution
